FRESKO ATELIER

Quiet Luxury. Distinctive Presence.

Fresko Atelier creates interior objects that bring character, atmosphere and sculptural presence into exceptional spaces.

We believe true luxury is quiet — expressed through form, texture, proportion and individuality rather than excess.

Each piece is designed to feel personal, refined and enduring, becoming more than an object: a distinctive part of the interior.

Our work is created for clients who appreciate thoughtful design, craftsmanship and the beauty of uncommon details.

Fresko Atelier is not about decoration alone — it is about presence, emotion and identity within a space.

FRESKO ATELIER

Bespoke Possibilities.

Our collections are presented with selected standard dimensions, finishes and colour options. However, each piece can be adapted to meet the specific needs of your project or space.

- Custom dimensions available upon request
- Made-to-order production
- Individual colour selection beyond those shown in the catalogue
- Additional shades available, including burgundy, khaki, green, yellow, red and blue
- Selected adjustments in texture, finish and proportion
- Custom pieces for residential, hospitality and commercial interiors

If a desired size, colour or configuration is not shown in the catalogue, it may still be available as a bespoke order.

For custom requests, our team will be pleased to assist you in creating a piece tailored specifically to your space.

OBJECTS
THAT BELONG

FRESKO

ATELIER

MADE WITH INTENTION

Every Fresko Atelier piece is developed with attention to proportion, texture and atmosphere.

Our objects are created to interact with architecture rather than simply decorate it. Materials, finishes and dimensions are selected individually to achieve the right balance in each space.

Because many pieces are made to order, slight variations in texture and finish may occur — making each object subtly unique.

*Designed individually. Made deliberately.
Created to belong.*
